

United Utilities Group PLC
27 September 2018

UNITED UTILITIES CAPITAL MARKETS EVENT

United Utilities is today giving a presentation to investors and analysts to provide more detail on some of the key themes of our business plan for the 2020-2025 regulatory period, AMP7. The presentation will commence at 12.45pm at the Auditorium, Deutsche Bank, Winchester House, 1 Great Winchester Street, London, EC2N 2DB.

On 3 September we submitted our business plan setting out how we intend to meet the needs of customers and other stakeholders for AMP7 and beyond. Today's presentation will give more detail on how we will build on our achievements in AMP6 to deliver an even lower cost, better quality and more reliable water and wastewater service for customers in the North West of England.

Steve Mogford, Chief Executive Officer, said:

"We exit AMP6 as a high performing, responsible company and have submitted a plan for AMP7 that delivers for customers, aligned with the key PR19 themes. We are excited about what it means for AMP7 and beyond and today's event will demonstrate that this is a very high quality and ambitious plan, rich in content, with a compelling proposition of bill reductions and service improvements."

No new material on current trading performance will be provided as part of this event.
