

From the North West, for the North West

United Utilities' contribution to your Wyre and Preston North Constituency

Between 2020 and 2025 we will spend £9.5m improving services in Wyre and Preston North

Our investment in running and improving our services in Wyre and Preston North will contribute £68m to the economy in your constituency over the next five years.

Some **47 people** who live in Wyre and Preston North work for us directly, many of them now recognised as key workers for the essential services they help deliver.

We support a total of **22,500 jobs** throughout the North West through many local companies in our supply chain, some here in Wyre and Preston North.

We help people who need it in times of financial crisis, like during the recent COVID outbreak.

We are Water for the North West

Whether delivering essential water and wastewater services, creating local jobs or helping safeguard the region's uniquely beautiful environment, we touch the lives of every person in Wyre and Preston North every day without them even knowing.

We'll be spending £9.5m right here over the next five years running, maintaining and upgrading water and wastewater services locally, including cutting leakage by 15% and improving the resilience of all our networks.

In Wyre and Preston North this includes work at Garstang wastewater treatment works to deliver water quality improvements. A project is planned for Bilsborrow to alleviate flooding issues.

Governance:

Fair Tax Mark

We generate substantial revenue for the UK Treasury, adding around £240m to public finances a year. In 2019 we were awarded the **Fair Tax Mark** as a measure of paying the right amount of corporation tax in the right place, at the right time. We hold a 'world class' rating in the Dow Jones Sustainability Index which we have maintained for 13 consecutive years.

Across the North West, all day, every day

We employ around
5,000 staff
and support another
17,500 jobs
in our supply chain.

Many pensioners across
the North West and
beyond rely on the stable
returns we deliver.

We support more than
100,000 customers
through a portfolio of
schemes aimed at tackling
affordability and vulnerability.

As the only locally-based FTSE100 company in the North West, we do our utmost to help level up the region to its rightful place as one of the best places to live, visit and invest in the UK.

In the next five years, we'll invest £5.9bn running, upgrading and future-proofing the region's water infrastructure and services to a blueprint shaped by our customers.

We'll help lift a quarter of a million people out of water poverty, cut leakage and knock a tenth off water bills so that by 2025 average bills will be less, in real terms, than 2010.

And we'll adapt as we go. As COVID-19 shows, customer priorities change, which is why we constantly seek their views through Water Talk, our 7,700-strong customer panel.

Get in touch

As an MP, your unique insight into local and national issues is hugely valuable and we'd like a working relationship that's as useful to you as it is to us.

Hopefully, this snapshot of how we shape up in your constituency is a good start. We look forward to working with you and your team.
