# 1 Your daily average usage

These graphs help to show how much water you're using on average each day and compares this against your previous bills so you can clearly see if you're using more or less water.

## Your daily average usage

This chart compares your daily average water usage across your last 4 bills.

## How do you compare with other households?

This chart shows how much water other households typically use each day, based on the number of occupants.

Save water, save money. Visit [unitedutilities.com/savewater](https://unitedutilities.com/savewater) for plenty of tips to help you reduce your water and energy bills.

# 1 How do you compare with other households?

This section shows the typical daily usage for households based on the number of people living in the home. This allows you to see if your daily usage is more or less than a typical household.

# 2 Your charges

This section shows exactly how much you're paying for your water and wastewater services and is broken down so you can see each element of your bill.

# 2 Your charges

Fresh water £195.31

Wastewater £209.79

Usage 67 m³ @ £2.733 per m³ = £183.11

Standing charge 182 days @ £24.46 a year = £12.20

Usage 67 m³ @ £2.014 per m³ = £134.94

Standing charge 182 days @ £150.05 a year = £74.82

Your new charges £405.10

- Water usage:** The cost of the clean water we supply to your home, based on your meter readings.
- Standing charge:** This is a fixed annual charge associated with the costs of providing our services, and is shared amongst all our customers.

- Wastewater usage:** The cost of collecting your dirty water, cleaning it and returning it to the environment.
- Standing charge:** A fixed amount associated with the cost for taking away rainwater that drains from your home and the public highway and the cost of providing customer services. If rainwater from your home doesn't drain to the sewer you can claim a reduction for your surface water charges at [unitedutilities.com/surface-water-drainage](https://unitedutilities.com/surface-water-drainage)

#### Priority services

We can all benefit from a bit of extra support at some stage in our lives. This could be due to age, ill health, disability, mental health problems or language barriers.

Registering for our Priority Services is free and means we can offer additional support tailored around your particular needs.

Visit [unitedutilities.com/priorityservices](https://unitedutilities.com/priorityservices) or call **0345 072 6093** to register.

#### Leaky loos are losing loads

One of the biggest culprits for wasting water in the home are faulty toilet cisterns, especially the modern push button types.

That's because modern cisterns tend to overflow into the toilet bowl rather than through a pipe in the wall, making leaks difficult to spot.

Left undetected, a faulty cistern could be wasting as much as 400 litres of water a day!

For more details visit [unitedutilities.com/leakyloo](https://unitedutilities.com/leakyloo).
